SUMMARY
GenAI developer with 1.5 years of experience building RAG systems and LLM agents with Python and FastAPI.

SKILLS
Python, FastAPI, LangGraph, LangChain, RAG, pgvector, PostgreSQL, Redis, Docker, PyTorch, Hugging Face, AWS

EXPERIENCE
GenAI Developer, Acme Analytics (fictional), Bengaluru - Jan 2025 to present
- Built a RAG support bot over 12,000 help-center articles; recall@5 improved from 0.71 to 0.83 by tuning chunk size.
- Cut p95 latency from 2.4 s to 900 ms with Redis response caching and streaming.
- Designed an LLM-as-judge evaluation set of 200 questions run in CI on every prompt change.

PROJECTS
Document QA Agent - LangGraph, FastAPI, pgvector
Multi-step agent that retrieves, verifies citations and retries with a rewritten query when retrieval fails.

Deepfake Video Detector - PyTorch, OpenCV
CNN + LSTM classifier over face crops; 94% accuracy on a held-out test split.

EDUCATION
B.E. Computer Science, Example Institute of Technology, 2024
